Sir:

In response to the Office Action dated May 6, 2005, Applicants are resubmitting the Amendment dated April 18, 2005 since the Office Action indicated that its facsimile transmission was not readable. Applicants note, however, that the version of the Amendment in the private PAIR appears readable, and that the unreadability is on the part of the USPTO facsimile/scanning facilities. As such, Applicants respectfully submit that a fee is not necessary.

Further, the Office Action indicated that the double patenting rejection of claim 1 was not addressed. Applicants believe that the double patenting rejection was addressed at page 6, third paragraph of the April 18, 2005 Amendment. However, to further prosecution, Applicants have herein submitted a Terminal Disclaimer to remove the double patenting rejection.
